

GatherCraft™

FINE PATIO & OUTDOOR FURNITURE

GatherCraft™
OUTDOOR FURNITURE

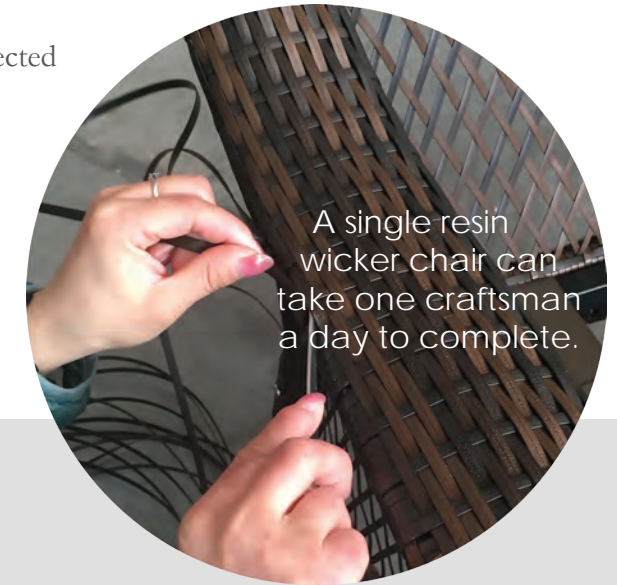

Where Friends
& Family Gather.

As a manufacturer of premium outdoor furniture, we believe that a patio or deck should be an extension of your living space. Whether you use this area for entertaining or as a retreat from the world, you'll find that GatherCraft doesn't compromise on quality, comfort, or style when it comes to crafting our quality resin wicker, cast aluminum, and wrought aluminum furnishings.

HAND CRAFTED DETAILS

Our extremely realistic wicker is UV protected and designed to withstand years of use. Created with resin that varies in both texture and color, each piece is hand-woven over steel-reinforced, heavy-gauge aluminum extrusions making each piece a one-of-a-kind.

A single resin wicker chair can take one craftsman a day to complete.

EXTRA ROOM

We understand that regardless of build or size, everyone appreciates comfort! It's one of GatherCraft's missions to provide solid outdoor furniture that's strong and large enough to be comfortably used by all owners.

Antique accents are applied using a bristle brush to make each piece unique in appearance.

Each cast and wrought aluminum component receives hand-painted, antique accents before undergoing a final polishing coat of protectant sealant.

FINEST QUALITY MATERIALS

Your outside deck or patio is an investment in you. We've designed our furniture with that investment in mind. Crafted to last, we use stainless steel hardware and heavy gauge aluminum extrusions to ensure safety and support.

DURASupport™

GatherCraft collections featuring the DURASupport frame are quality designed for extra durability and support. DURASupport frames are manufactured from the highest quality, cast aluminum, providing for a heavier, more durable furnishing that won't blow away with the first gust of wind. DURASupport frames are much stronger than frames made from extruded, or hollow aluminum, supporting more weight and strenuous usage. DURASupport frames are also more resistant to rust and wetter, maritime climates.

SPF SUN PROTECTED FABRIC

Our SPF Solar Protected Fabric™ keeps your cushions as colorful and vibrant as the day they were purchased! Woven from 100% solution-dyed, high-quality silken polymers, SPF fabric is designed to be resistant to SUN, WEAR, STAINS, MILDEW, AND MOLD – all while providing the support and comfort that's synonymous with GatherCraft. Depending on the collection, this material comes with a 1, 2, 3, 4 or 5-year warranty (SPF 10, 20, 30, 40 or 50), and is extremely easy to clean and maintain.
